

# HAR GHAR BIJLI LAGATAR

*Mobile and Web Application to  
achieve 100 per cent electricity  
connection to each and every  
household of Bihar*

# OVERVIEW

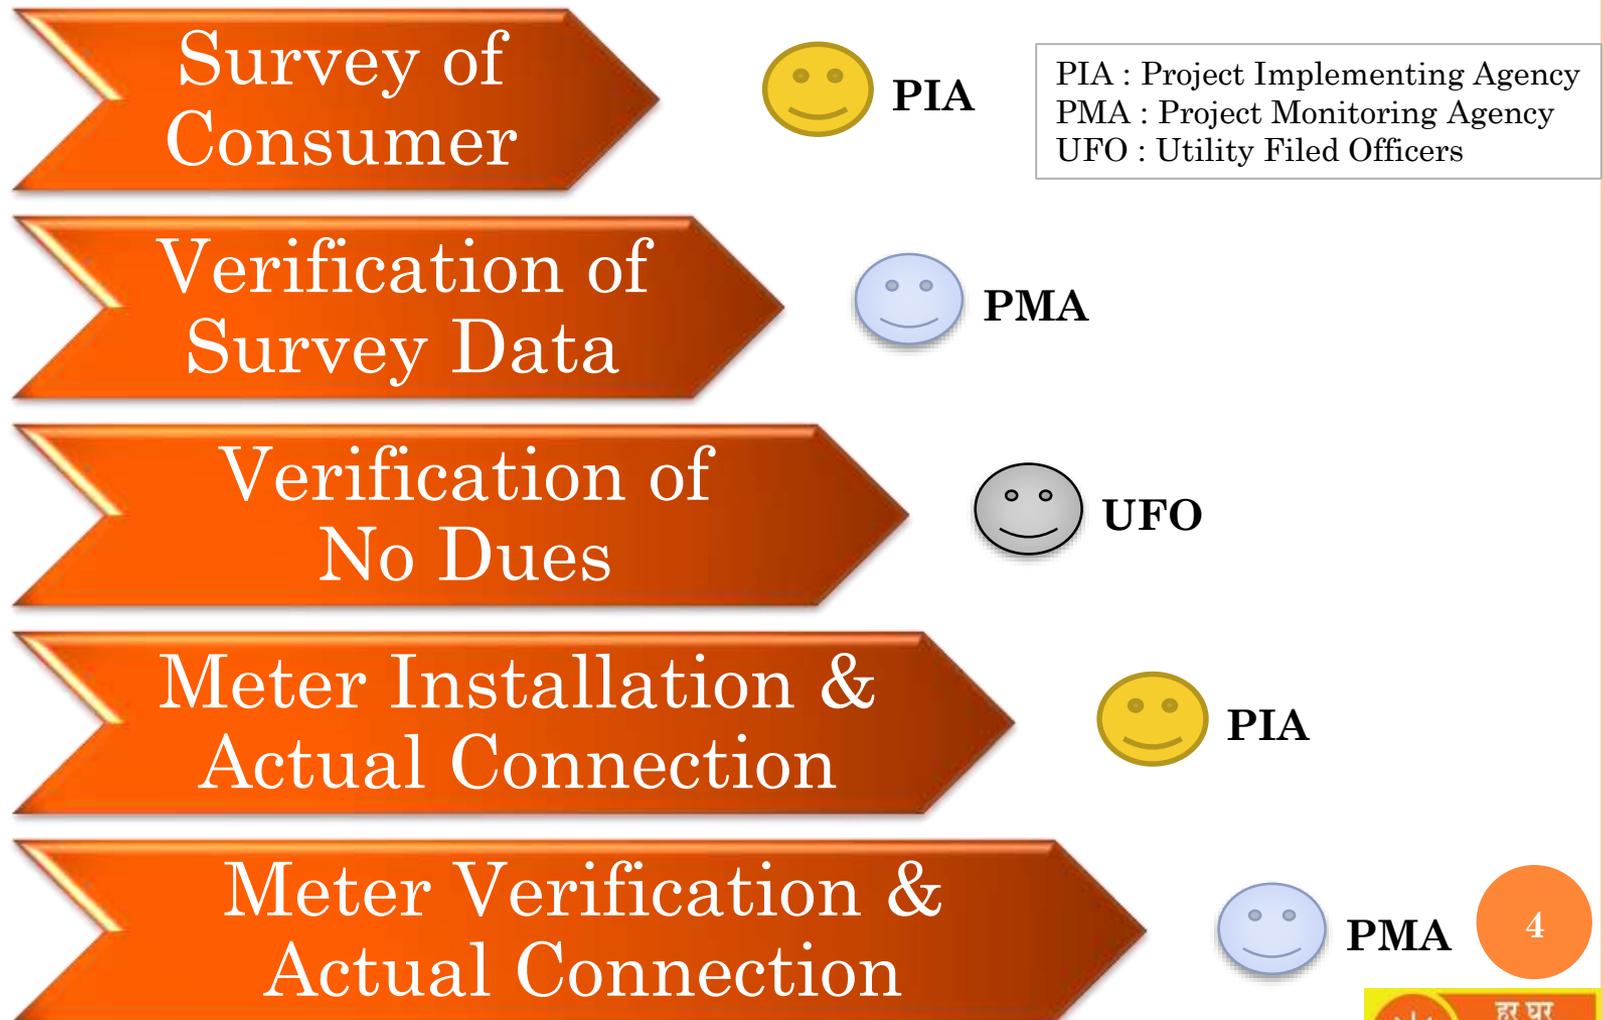

In order to boost the electricity growth to next level the program “ **Har Ghar Bijli Lagataar** ” is introduced and with this program the state government of Bihar ensures the electricity connection to each and every household of Bihar.

- In this context, two software applications have been developed i.e.
- Mobile application (Har Ghar Bijli)
- Web application

# SALIENT FEATURES

- New APL connection process is fully online; no manual work is to be done.
- Two separate mobile apps has been developed; i.e. one for Registration & Meter Installation and other for Verification by JEE/PMA.
- Web application will be used by Utility Officers for creation of Users, assignment of Roles, meter allocation to PIAs, viewing MIS Reports and approval for billing cycle.
- After registration process applicant will receive a message with acknowledgement no.
- In message, applicant will be informed about the tentative verification date and meter installation date.

# WORK FLOW OF MOBILE APPLICATION

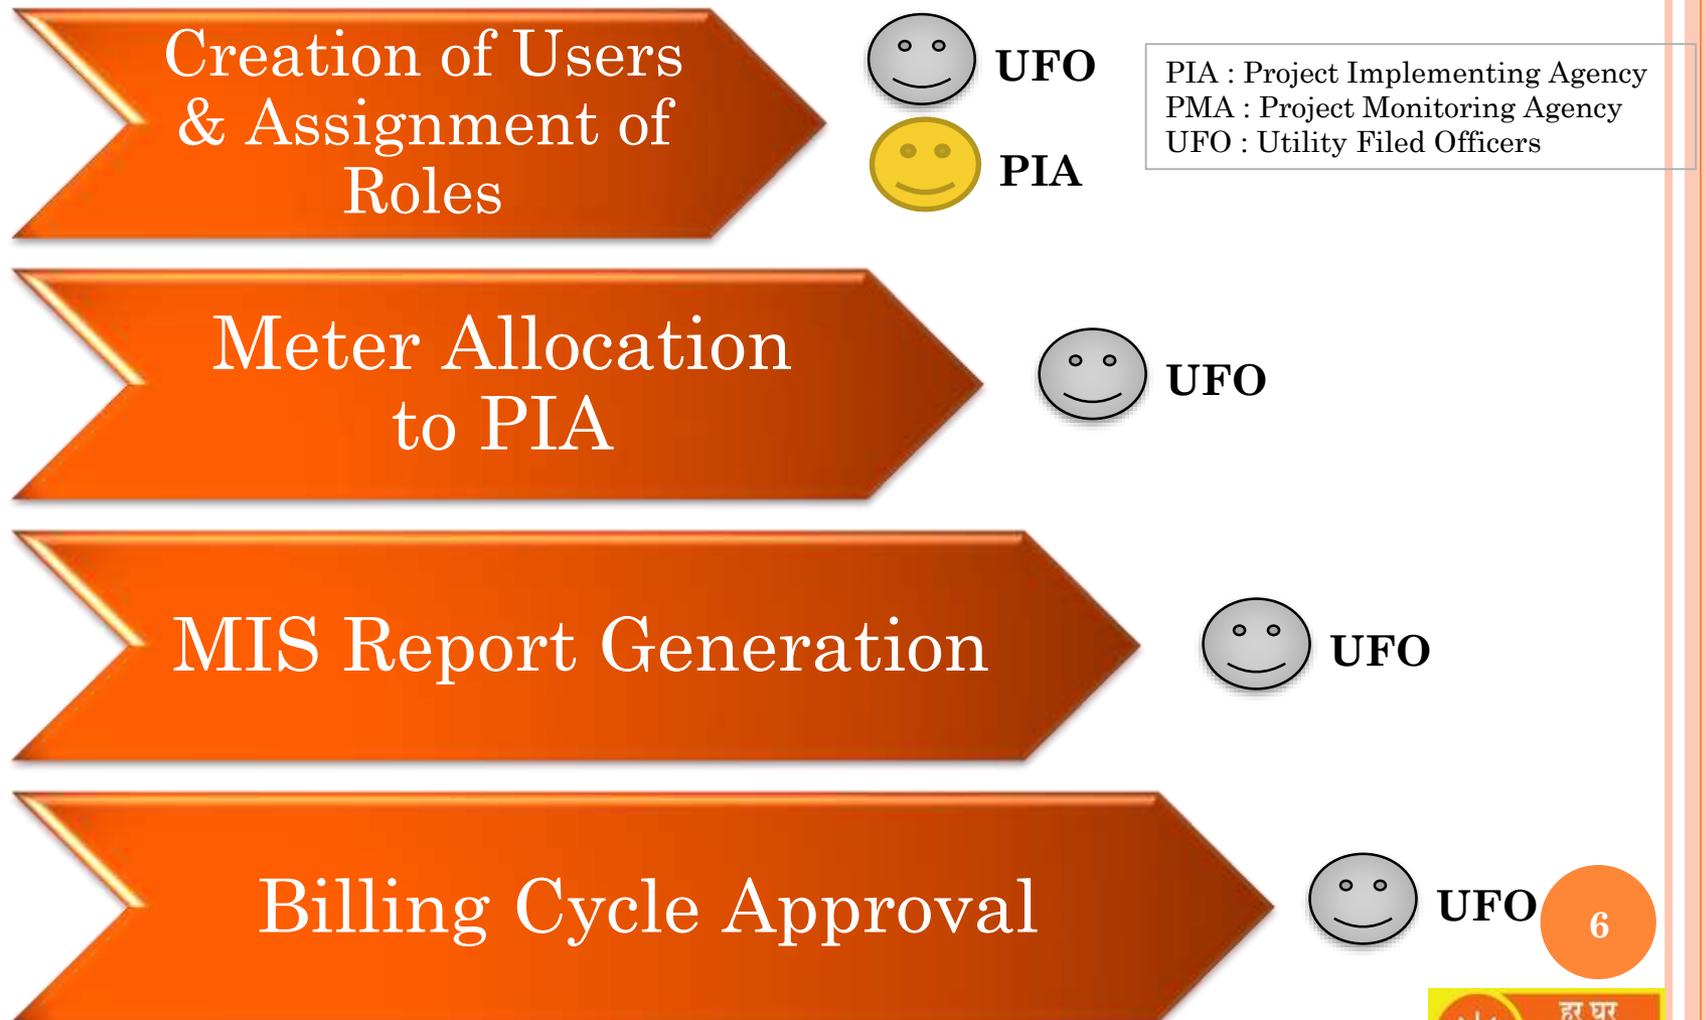

# WORK FLOW OF MOBILE APPLICATION

**Mobile application will be used by :-**

- Project Implementing Agencies for survey of consumers to whom new connection is to be given.
- Project Monitoring Agencies for verification of 20% surveyed consumers.
- Project Implementing Agencies for installation of meters and giving actual connection to consumers.
- Project Monitoring Agencies for verification of 100% connection given by Project Implementing Agencies
- Utility officers for verification of dues for registered applicants and status of meter installation.

# WORK FLOW OF WEB APPLICATION

# WORK FLOW OF WEB APPLICATION

- Utility officers will use web application for
  - Creation of mobile application users, assignment of roles for PIAs and PMAs.
  - Allocation of meters to Project Implementing Agencies.
  - Inline for billing process
  - Viewing various MIS reports
- Web application will be used by all stakeholders for
  - Viewing various MIS reports.
- Web application will be used by applicant
  - To check connection application status

# BENEFITS

## Applicant Satisfaction

- ❑ Transparency is ensured in online connection process.
- ❑ Applicants will know their application status through web application/SMS at every stage such as
  - Acknowledgement of application
  - Application confirmation
  - Installation of meter
  - Bill generation

# BENEFITS

## Saves time

- After implementation of this application, the cycle time between applying for new connection and allocation of actual physical connection will reduce significantly.
- Since the entire process is carried through mobile and web and is paperless, it reduces the time earlier used for traditional document processing.

# BENEFITS

## Efficient Monitoring

- Single window system to take quick decision with the help of various MIS reports
  - Till date survey completed
  - Till date survey verification completed
  - Till date connection given
  - Till date connection given to verified consumers
  - Pending for verification

Note: These report will be available district wise, block wise, panchayat wise, village wise, division wise, sub division wise , section wise etc.
